PROFESSIONAL SUMMARY

Passionate Game Developer, Generative AI Specialist, and Prompt Engineer. Skilled in Unity, Python, Blender, and generative AI pipelines. Lead developer of Frostbound: Eternal Awakening.

OBJECTIVE

Seeking an internship in Game Development or AI Integration focused on procedural generation, intelligent automation, and scalable tooling.

EDUCATION

BCA — IGNOU (Pursuing, Expected 2026)
10th — 75% (CBSE), 12th — 64% (CBSE)

EXPERIENCE

Executive Assistant — SKN Consultancy (1 year): Admin, finance coordination, documentation, reporting.
Freelance Developer — Game Dev & AI Tools: Lead developer of Frostbound; built Blender asset generator and Unity AutoPrefabImporter.

Languages	C#, Python, JavaScript, HTML, CSS, Java, C, C++
Game/Tools	Unity, Blender, Git, VS Code
AI / Data	Generative AI, Prompt Engineering, GPT4All, Whisper, Data Mining, Advanced Excel
Office	MS Office Suite, Google Workspace, Advanced Excel
Automation	FBX export pipelines, JSON metadata, Unity import automation

SELECTED PROJECTS

• Frostbound: Eternal Awakening — AI-powered mythological survival RPG.
• Blender Asset Generator — Procedural low-poly generator with metadata export.
• Unity AutoPrefabImporter — Automated LOD/collider/material setup using JSON metadata.

STRENGTHS

Generative AI & Prompt Engineering, Data mining expertise, Advanced Excel automation, Fast learner, Strong documentation & coordination.

CERTIFICATIONS

Ethical Hacking (Cisco); Certificates in Unity, Python, AI, Data Analysis (available on request).

References available upon request.
